

"Feed Our Future" Capital Campaign

Dear Neighbor,

Summer, 2021

The Holyland Food Pantry, Inc. (HFP) is excited with the progress of our "Feed Our Future" capital campaign to-date. As of last month, the HFP has successfully reached the major milestone of raising and receiving \$250,000 in total contributions. This provided us eligibility to also receive a matching \$250,000 grant.

We are in an unprecedented difficult construction environment. The original amount of \$500,000 is not sufficient to cover the current cost of building and materials. The HFP plan remains to construct a one-level steel building to be located on Kiel Road in Marytown.

HFP was formed in 2014 to serve the growing need for emergency and supplemental food and referrals to resources in our underserved Holyland. Those requesting service has grown from 14 households to over 40 households monthly, with more than 50 children impacted. HFP has simply outgrown its current space.

Our forward plan remains focused on providing emergency and supplemental food for those in need. In addition, the new facility will enable HFP to increase its ability to refer people to resources, as the new facility will provide spaces for clients to meet with local agencies.

The proposed new building (see reverse side) will have increased storage to take advantage of bulk buying of commodities. It is zoned commercial to give us the ability to access Federal and State government food programs for meat, produce, and dry goods. It will be handicapped accessible.

HFP needs your help to make this a reality.

We invite you to contact a HFP member listed on the back to answer any questions.
